Distribution Area for Assessed Landowners (Map)

NOTES:

The primary source of base features on this map originate from Natural Resource Canada's CanVec product. Supplementation using GIS or remote sensing based data from provincial, municipal, or private sources may also be present.

Different themes represented on this map reflect different levels of temporal accuracy. Transportation, hydrographic, and cadastral features are more likely to reflect current ground conditions. Vegetation, land use, and cultural landmarks (e.g. buildings and other structures), especially around urban areas are will be less temporally accurate.
